

NDIS IMPROVED LEARNING

Tailored support for your journey from school to further education

The Improved Learning program is designed to provide you with skills training, access to advice, and assistance with arrangements and orientation into further learning.

A PERSONALISED APPROACH

NDIS Improved Learning equips you with the skills, advice, and personalised support needed to transition from school to further education, including assistance with student applications and understanding timetables. The Improved Learning category is designed to support you on your pathway to further education.

HIGHLIGHTS

A key highlight of the NDIS Improved Learning program is its focus on providing tailored support for individuals with disability to access educational opportunities. Helping participants develop essential skills that enhance their ability to engage in training, study, or vocational learning.

ELIGIBILITY

To access NDIS Improved Learning supports, you must have an active NDIS plan with Improved Learning under the Capacity Building category.

You might choose to go to university, explore a vocational pathway like TAFE, or gain valuable work experience to learn on the job. Whatever path feels right for you, be sure to include it as a goal in your NDIS Plan so you can receive funding for the supports you need.
