It's all about you!

We're here to support you on your employment journey and tailor our assistance to match your goals and needs every step of the way. Your unique needs are our priority.

What is Finding and Keeping a Job?

When you join our Finding and Keeping a Job support, you will learn new skills and get ready for future jobs! We'll help you with real-world work activities, improve your reading and math skills, support you in getting your driver's licence, and help you to complete qualifications.

PLUS! We'll connect you with local businesses for work experience and job opportunities.

Let's explore and grow together!

Once your NDIS funding is approved, we'll start our journey together. You'll get to take part in activities like learning about careers, find work experience opportunities, and we can talk about the supports you might need while working.

We will even help you develop important skills like time management, travel skills, money handling, and getting prepared for an interview.

Turn your passion into a qualification!

Dreaming of working in an industry you love? Let us help you to gain nationally recognised qualifications such as:

- Responsible Service of Alcohol (RSA)
- Responsible Service of Gambling (RSG)
- Barista or Hygienic Practices for Food Safety

What if you need extra support?

Our NDIS Career Coaches offer one-on-one sessions, small group activities, or a mix of both. We want you to feel supported. As you transition into employment, we can arrange on-site assistance to ensure you feel confident and supported in your workplace.

For more information and help exploring your options, please contact our friendly NDIS Employment Supports team.
